**Subject:** Wyoming Self-Audit MOA

Todd, at long last I have an MOA we would propose to the State of Wyoming regarding implementation of the State's self-audit law. The goals of the MOA are to provide certainty with respect to implementation of Wyoming's law while recognizing that EPA does have responsibility to ensure that federal environmental programs delegated to the State are implemented consistent with federal law and regulation.

Because the MOA is of reasonable length I won't outline it in this email, but I will call you this week after you have had a chance to review it.

Thanks for your patience and I hope that you are well.

Best,

Doug
